## Product Watch

### Monsoon Collection by Zynna

Zynna has launched a new range of lavender fabrics and wallpapers. The mix of contemporary and traditional combined with the rich fabrics and patterns makes the collection aristocratic and luxurious. The fabrics have a vast and distinctive variety along with sheer and soft pastel shades of lavender that are a perfect backdrop when paired with gold. Lavender and purple are considered aristocratic colors so the magnificent palate will bring a luxurious look in interiors.

### Plüsch launches Jalis sofas by COR of Germany

Plüsch has launched Jalis soft sofas of German brand COR. Jalis taken from Arabic, translates to 'relaxed communication'. The Oriental style sofas range from casual lounging to formal entertaining. Available in finishes of lacquer, veneer and solid wood, the cover materials of the upholstered sofas, chairs, and beds include fine fabrics and high-quality leather. The fine

fabric provides support and style, and when the light hits it in a certain way you'll appreciate a pattern of three-dimensional fine embroidery. The deep seats, cushy backrests and copious cushions deliver comfort, giving the impression of a few loose cushions lying together. Jalis sofas are available at all Plüsch showrooms in Delhi, Bengaluru, Mumbai, and Hyderabad.
