CW INTERIORS

Use eclectic printed crockery to serve guests.

The bright chalk-toned vases are perfect additions, as colourful accent pieces.

RE-THINK YOUR WALLS

One of the most effective ways to give your living space a fresh look is to start with the walls. **Priyanka Mehra, Principal Architect, PS Design**, says that one can add a pop of colour to do up the home for the festive season. "If you have white walls, consider adding a festive colour like an orange or a bright blue to instantly uplift the mood of the room. You can also consider adding bright wallpaper for a change." She says that vinyl tiles are also hugely popular these days. Available in custom designs, they look decorative and are easy to stick too. CW INTERIORS and Architect Priyanka Mehra collaborated on a four-part video series called 'Edit Your Home'. From easy tips for a dinner party setting, and decorating the home with accessories to a quick bedroom and balcony makeover, the series address areas of the home that need attention especially during the festivities. Visit www.dezigngenie.com/dezigngenieTv to watch them all.

For temporary décor, try changing the paintings and

QUICK TIP

- Artistic wall hangings can be used to place tea-lights to add some naturally diffused lighting in the room.
- Add eclectic wall art to introduce a pop of colour in the room.

Flower arrangements and fragrant candles are a must-have.

A sculptured lamp can brighten up the shelving unit.
